RELOCATE TO PANAMA WITH CONFIDENCE

WHY PANAMA?

Panama is ranked first among 31 destinations in the 2026 InterNations Expat Insider survey.

The country offers a combination of modern urban living, established residential communities, beach destinations and cooler mountain regions.

Panama offers a high-end lifestyle in the capital city in developments like Santa Maria and Costa del Este. If you prefer the beach, there are upscale residential areas like Bijao or Buenaventura, or more modest locations like Coronado, already home to a significant North American and European community, Pedasí or Bocas del Toro. For a cooler climate, there's Altos del Maria, just two hours from the capital, or Boquete, the land where the world's finest coffee, Geisha, is produced.
